

PALLAB BANERJEE

Full-Stack Developer | BCA Student

Phone: +91 7980984961 | Email: pallabbanerjee074@gmail.com | Location: West Bengal, India

LinkedIn: linkedin.com/in/pallab-banerjee | GitHub: github.com/PallabBG

PROFESSIONAL SUMMARY

Aspiring Software Engineer and 2nd-year BCA student with a strong foundation in Full-Stack Web Development (MERN) and IoT systems. Passionate about solving real-world problems through technology, demonstrated by active participation in 24-hour hackathons and technical competitions. Proficient in Data Structures in C, API integration, and building responsive, accessible user interfaces.

TECHNICAL SKILLS

Languages: C, JavaScript (ES6+), Python, HTML5, CSS3 **Frontend:** React.js, Bootstrap, Responsive Design

Backend: Node.js, Express.js, RESTful APIs **Database:** MongoDB, SQL

Tools: Git, GitHub, VS Code, Arduino **Concepts:** DSA in C, IoT, OOP

HACKATHON & EXPERIENCE

Smart India Hackathon (SIH) 2025

Sep 2025

Technical Team Member | Future Institute of Engineering and Management

- Participated in internal selection for SIH 2025 with Team "Codanova".
- Contributed to the architecture of a **Smart Traffic Management System** to reduce urban congestion.
- Utilized React.js and Node.js for technical implementation in a 6-member team.

Hackathonix (24-Hour Hackathon)

Apr 2025

Full-Stack Developer (Finalist) | Future Institute of Engineering and Management

- Led Front-End development for **MediConnect**, a real-time health locator platform.
- Designed an accessible UI and integrated a chatbot for health queries using React and JavaScript.
- Delivered a functional MVP under high-pressure constraints.

Innovation Tech Fest

Mar 2025

IoT Developer | Future Institute of Engineering and Management

- Developed **AquaFlow**, a smart water monitoring prototype using Arduino.
- Integrated Flow Sensors (YF-S201) and C++ logic to track real-time water usage.

KEY PROJECTS

MediConnect – Smart Health Finder

- Full-stack health-tech platform to locate hospitals and book appointments.
- Tech:** React.js, Node.js, Google Maps API, OpenAI API.

Jarvis – Voice AI Assistant

- Voice-activated assistant using Gemini API for natural language processing.
- Executes system commands and web searches via voice interaction.
- Tech:** Python, SpeechRecognition, Gemini API, LangChain.

Lumo AI – Advanced Smart Chatbot

- Feature-rich chatbot with dark/light modes and chat history management.
- Tech:** HTML, CSS, JavaScript, Python.

EDUCATION

Bachelor of Computer Applications (BCA) - Hons.

2024 – 2028

Future Institute of Engineering and Management | Kolkata, India

- AICTE Approved Coursework | Current Semester: 3rd Sem

Higher Secondary (12th)

Completed

Langalberia Surath Smriti Vidyamandir

- Stream: Arts (Major subjects: Geography, Psychology, Education, Bengali).

CERTIFICATIONS

- Build On Stacks:** Blockchain Development & Smart Contracts (Rise In)
- Cloud Computing Fundamentals:** IBM SkillsBuild
- Design Thinking:** IBM SkillsBuild
- Inception 2025:** Technical Project Competition (FIEM)
